40th Annual Scientific Meeting

9th - 11th December 2008

Basic Abdominal Ultrasound Training

Tuesday 9th December 2008

On Tuesday 9th December, BMUS presents a specialist introduction to basic abdominal ultrasound scanning techniques.

- Aimed at clinicians looking to learn basic abdominal scanning skills
- Benefit from:
 - small group teaching
 - practical demonstrations
 - hands-on experience using live models
 - teaching from experts in the field
- Learn to scan the liver, biliary tree, urinary tract and spleen.

BMUS 2008 has a strong, multidisciplinary scientific programme, with special emphasis on hands-on workshops and integrated training sessions, combining small group seminars with practical training.

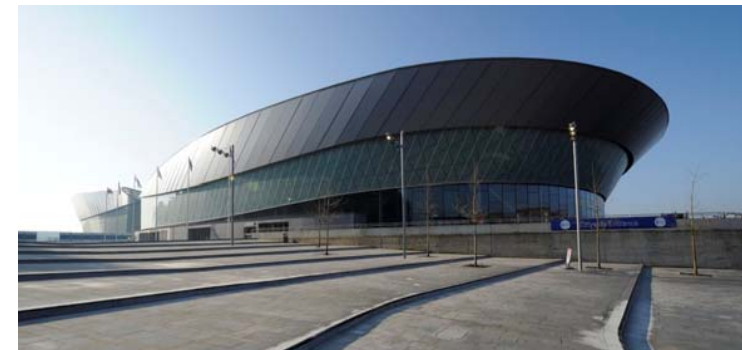

Try out the latest equipment from all major manufacturers at our workshops and training sessions and visit our small commercial exhibition.

Cancellations made between 3 and 14 days before the meeting will receive a 50% refund. Cancellations made 3 or fewer days prior to the meeting will receive no refund.

PROGRAMME: Tuesday 9th December
Basic Abdominal Ultrasound Training
VENUE:
**Arena and Convention
 Centre Liverpool
 Monarchs Quay
 Liverpool, L3 4FP**
You will be sent a full map and directions on booking

This day is aimed at people with little or no experience of abdominal ultrasound. Experts in ultrasound from the UK will take you through how the ultrasound image is produced, safe and effective use of the ultrasound system, scanning techniques for the upper abdomen, normal anatomy and introduction to common upper abdominal pathologies. The day will adopt a very hands on approach with many live demonstrations and ample opportunity to gain experience of scanning human models under supervision of expert trainers. The PLAY-TIME sessions will be your opportunity to have dedi-

- 9.00 - 9.10 Welcome and Introduction**
- 9.10 - 10.00 How is a conventional ultrasound image produced?**
This lecture is the only didactic lecture of the day! It will cover the basic science of ultrasound image formation.
- 10.00 - 10.30 How to get the best out of your ultrasound system**
Live demo and theory. This session will ensure a basic knowledge and understanding of ultrasound system controls and how to get the best out of your ultrasound system.
- 10.30 - 11.15 PLAY-TIME!** - System optimisation – hands on session.
Tea and Coffee will be available between 10.30 a.m. and 11.00 a.m. and served in the adjacent Exhibition Hall.
- 11.15 - 12.00 Patient preparation and safety issues for upper abdominal ultrasound**
Live demonstrations covering:
 - What preparation is needed for abdominal ultrasound and why?
 - The prepared and the unprepared abdomen
 - Breathing manoeuvres for upper abdominal ultrasound
 - Reducing RSI for the operator
- 12.00 - 12.30 Image orientation and spatial mapping – which way up?**
This session will teach you how to hold the probe, how to orientate the probe on the patient, anatomical planes and interpretation images on the system screen.
- 12.30 - 13.30 LUNCH: A chance to eat, see the conference exhibition, socialise and speak to Faculty!**
- 13.30 - 15.30 How to scan the liver, biliary tree, pancreas, urinary tract and spleen in one easy lesson!** - the afternoon will consist of a series hands-on sessions where delegates will have the opportunity to rotate around each scanning station.
- 15.30 Tea/Coffee Break**
- 16.15 Putting it all together to make “an upper abdominal survey”**
Live demonstration followed by your chance to have a go!
- 16.50 Questions, discussion and closing remarks**
