55th Annual Scientific Meeting of the British Medical Ultrasound Society

ULTRASOUND

10th - 12th December
Coventry Building Society Arena
Coventry

2024

The 2024 Scientific Organising Committee is chaired by Miss Shaunna Smith. Shaunna is a Clinical Specialist Sonographer working in Hull University Teaching Hospitals where she has worked for the last 9 years.

Shaunna has both a PGDip and MSc (2016) from Leeds University. She is an all-rounder sonographer with a specialist interest in prostate biopsies and contrast enhanced ultrasound. She has a keen interest in clinical teaching and education, acting as a practice educator for her trust and providing educational content for the BMUS website. Her main career focus is collaborative working and this will run in the theme of this year's ASM: Where does ultrasound fit in a patient's journey and how can we be helpful to clinicians?

Shaunna joined the BMUS Education Group in November 2020 and has been an elected member of Council since January 2022. Since becoming

a member of the Education Group, Shaunna has been responsible for delivering our prestigious Obstetrics Study Day in 2021, 2022 and 2023 as well as the BMUS flagship General Medical Study Day in 2023. For Ultrasound 2023, Shaunna has supported the development of both the Professional Issues Stream and the Student and Trainee Satellite Session.

Shauna has a love of dogs, is an avid chocolate fan and enjoys spending time with her family and socialising.

Shaunna is delighted to be chairing Ultrasound 2024, our 55th Annual Scientific Meeting and looks forward to bringing you a programme full of interesting, innovative and collaborative talks.

Coventry Building Society Arena

BMUS are delighted to be able to bring the 2024 Annual Scientific Meeting and Technical Exhibition to Coventry Building Society Arena, Coventry.

Coventry sits just **one hour from London** by train, and **20 minutes from nearby Birmingham**, making it conveniently interlinked with the rest of England. The East Midlands Airport is located just an hour away as well. The Arena is located less than a mile from the M6 and has ample parking for delegates and exhibitors alike.

Coventry has an interesting and varied history, from being the birthplace of the Godiva legend and the motor car in Britain, a medieval walled city and 20th-century industrial powerhouse and a victim of the blitzkrieg, as well as a centre of international peace and reconciliation. All of this makes Coventry a truly unique city.

BMUS will be hosting the 2024 55th Annual Scientific Meeting in rooms across the arena. With a hotel on site, excellent transport links and an excellent exhibition space, it will fully meet all the meeting requirements.
