

An Introduction for Medical Sonographers into Small Animal Veterinary Ultrasound Study Day 2024

10th August • Holiday Inn Runcorn

This study day is designed to "scratch an itch" for those Diagnostic Medical Sonographers who have an interest in small animal ultrasound and are curious to learn more about what it involves. The day will elaborate upon interesting differences between medical and veterinary ultrasound, especially the way in which diagnostic sonographers work, the techniques employed, the anatomical structures and so on. The event will also include practical hands-on workshops.

Fees

Member registration	£150
Non-member registration	£195

9.00–9.15	Registration, introduction, aims and objectives
9.15–10.30	<p>What's New Pussycat?</p> <ul style="list-style-type: none"> • The Veterinary Surgeons Act – The Dos and The Don'ts. Working within your new scope of practice • Reporting – A Backwards Step or A Little Light Relief: Differential Diagnoses • Get a Grip! Differences in Probe Handling and Patient Scan Positions
