

Ultrasound 2015

47th Annual Scientific Meeting of the
British Medical Ultrasound Society

MSK Fundamentals Imaging & Intervention

Organised by A Hall

11th December 2015

*This session is aimed at any
practitioner undertaking
ultrasound practice.*

A full day of MSK training aimed at those with an interest in MSK ultrasound, and a sound knowledge of ultrasound instrumentation but little practical experience in MSK scanning. Lecture sessions in the morning aim to educate delegates in rotator cuff pathology and cover ultrasound appearances of benign and malignant 'lumps and bumps'. Training in ultrasound of the shoulder and governance in point of care ultrasound will be discussed and the unique advantages of dynamic ultrasound assessment.

Lecturers include: M Smith, T Matthews, M Maybury, S Davies, G Morgan

The morning sessions are complimented by the afternoon practical training sessions which give delegates the opportunity to work in small groups with experienced ultrasound trainers, who will assist with basic MSK US techniques on state of the art ultrasound systems.

Faculty: A Hall, S Savage, M Maybury, S Davies, C Drury, L Waring, M Smith

Member - £193 Early Bird / £250 Post Early Bird
