

## Day 2 - Wednesday 11th December 2019

HALL 1	HALL 2	HALL 3	HALL 4	PRACTICAL
<p><b>Women's Health: Early Pregnancy</b> <i>Organised by A Smith</i></p> <p><b>Diagnosis, detection &amp; delivery - towards the thoughtful and inspired practitioner</b></p> <p>The early pregnancy and three gynaecological sessions have been designed to challenge our current approach to ultrasound interpretation, through a combination of conventional expert lectures and interactive multidisciplinary round table discussion - with the overall aim of inspiring and updating the delegates.</p> <ul style="list-style-type: none"> <li>Dilemmas of diagnosis in early pregnancy – pitfalls and medico-legal implications</li> <li>What to say and how and when to say it – discussing early pregnancy scan findings</li> <li>'Ask the experts' – interactive case studies discussion</li> </ul>	<p><b>Musculoskeletal 1</b> <i>Organised by L Waring</i></p> <p><b>Anatomy and scan technique for shoulder, hand and wrist and foot and ankle</b></p> <p>Live scanning demonstrations of 'how to' scan some of the more common MSK regions with anatomy talks.</p>	<p><b>Professional Issues</b> <i>Organised by C Kirkpatrick</i></p> <p><b>Safe Practice and Promoting Excellence</b></p> <p>How do we continue to promote safe practice in ultrasound? Do we become blasé in the quagmire of essential paperwork? Is it always about not missing the pathology? Can we embark on a journey of 'Getting it Right First Time'? This session explores how professional standards, research and government bodies can influence and promote safe practice and excellence in ultrasound departments. This session is suitable for all ultrasound practitioners/sonographers/Radiologists/ managers.</p>	<p><b>Young Investigator 2019</b> <i>Organised by C Moran &amp; T Humphrey</i></p> <p>During this session 6 short-listed oral papers from submitters under the age of 39 will battle it out to win the title of BMUS Young Investigator 2019 and the prize of representing the UK at the EUROSON 2020 Congress in Bergen, Norway.</p> <p>Further details can be found on the awards page.</p>	<p><b>Liver Segmental Doppler</b> <i>Organised by P Cantin &amp; P Parker</i></p> <p>This workshop is intended to offer delegates a strategy to understand segmental anatomy of the liver and to apply this in their general clinical practice.</p> <p>This workshop will comprise both formal lectures and practical experience using live models, under the tuition of expert faculty members.</p> <p>At the end of the workshop, delegates will have an understanding of liver segmental anatomy and be able to isolate liver abnormalities to a particular liver segment.</p>
<p><b>Women's Health: Polycystic Ovarian Syndrome, Subfertility and You</b> <i>Organised by A Smith</i></p> <ul style="list-style-type: none"> <li>The new European Society of Human Reproduction and Embryology (ESHRE) guidelines for the assessment and management of polycystic ovarian syndrome (PCOS)</li> <li>Diagnosis, treatment options and the resulting pathways for subfertile couples</li> <li>Moving from a competent sonographer to a thoughtful practitioner</li> </ul>	<p><b>Musculoskeletal 2</b> <i>Organised by L Waring</i></p> <p><b>Case study presentations</b></p> <p>Interactive session presenting pathological cases with discussion on role of Ultrasound and other imaging modalities and differential diagnoses.</p> <p>Open forum: reporting MSK examinations.</p>	<p><b>Head &amp; Neck</b> <i>Organised by C Kirkpatrick &amp; G Johnson</i></p> <p>This head and neck session will focus on the multi-disciplinary team and where ultrasound is most useful in the patient pathway. It hopes to enable the ultrasound practitioner understand wider aspects of neck pathology and delivery of service whilst advancing knowledge and improving the way disease is diagnosed. Highlights will include Clinical Examination of the head and neck, The U3 Conundrum and Infection in the head and neck.</p>	<p><b>ThUNDDAR</b> <i>Organised by G ter Haar &amp; C Moran</i></p> <p>Information on this stream will be available at a later date</p>	<p><b>Liver Elastography</b> <i>Organised by A Lim</i></p> <p>This workshop will outline the different Elastography technologies available followed by a practical session on how to perform strain and shearwave Elastography using different scanners. Potential clinical applications will also be discussed.</p> <p>The workshop is aimed at sonographers and sonologists who would like to start utilising Elastography in their routine clinical practice.</p>
<p><b>Women's Health: Towards Research</b> <i>Organised by A Smith</i></p> <ul style="list-style-type: none"> <li>Premature ovarian failure</li> <li>Caesarian section scars and cervical length</li> <li>Interpreting the evidence</li> </ul>	<p><b>Musculoskeletal 3</b> <i>Organised by L Waring</i></p> <p><b>Ultrasound in Rheumatology</b></p> <p>The role of ultrasound in rheumatology including seronegative rheumatology and ultrasound guided synovial biopsies in RA research - the tissue is the issue.</p>	<p><b>Breast</b> <i>Organised by K Satchithananda</i></p> <p>In line with 'Diagnosis, Disease and Delivery' theme of this year's ASM the breast session will aim to cover the expectations from a breast surgeon from the imaging in a symptomatic clinic, combining with presentations covering the most common pathologies that will illustrate that breast disease is a spectrum of changes. Education on the imager's role within the symptomatic clinic and on the new exciting, evolving technologies that are relevant to this area.</p>	<p><b>ThUNDDAR</b> <i>Organised by G ter Haar &amp; C Moran</i></p> <p>Information on this stream will be available at a later date</p>	<p><b>Obstetrics</b> <i>Organised by T Chudleigh</i></p> <p>The 2019 BMUS ASM has extended the practical workshops and is delighted to announce this year's programme which also include hands on scanning of pregnant volunteers in order to enhance the teaching of obstetric ultrasound techniques led by expert faculty of ultrasound practitioners/sonographers from the UK's leading Foetal Medicine Centres.</p>
<p><b>Women's Health: Everything you need to know about Endometrium</b> <i>Organised by A Smith</i></p> <ul style="list-style-type: none"> <li>The nurse practitioner's tale</li> <li>The gynecologist's tale</li> <li>The histopathologist's tale</li> <li>The sonographer's role</li> </ul>	<p><b>Question Time</b> <i>Organised by C Kirkpatrick</i></p> <p>It's back by popular demand! Tackling the important issues - the good, the bad and possibly the awkward...</p> <p>Get your questions in early via the BMUS website/email and via the App at the conference itself, and the expert panel will...try... to answer or debate the issues and current affairs of the ultrasound world.</p>	<p><b>Musculoskeletal 4</b> <i>Organised by L Waring</i></p> <p><b>Imaging Plantar plate tears</b></p> <p>The role of ultrasound in sports medicine.</p>	<p><b>ThUNDDAR</b> <i>Organised by G ter Haar &amp; C Moran</i></p> <p>Information on this stream will be available at a later date</p>	

**Gala Dinner & Awards Ceremony**
