

# Veterinary Ultrasound Study Day

## 2022

09/02/2022

## Where and When

Radisson blu, Meridian Gate, Bute Terrace, Cardiff, CF10 2FL

9th February 2022

## About this Study Day

The aim of running a BMUS Veterinary Ultrasound study day is to unite veterinary and human 'Diagnostic' Medical ultrasound users and allow this multidisciplinary team to support one another professionally within the remit of ultrasound imaging. The study day is aimed primarily at non-specialist imagers, such as Veterinary Nurses and Primary Care Vets who have very little access to competency based ultrasound training in the way that Medical ultrasound users do. We're also hoping to encourage other Diagnostic medical Sonographers who want to diversify and consider veterinary work as an option.

## Programme

- 8:30 Welcome and introduction from the Chair and Co-Chair- Mrs Angie Lloyd-Jones: Diagnostic Medical and SA Veterinary Sonographer, Director of Aspire UCS Ltd and Sonographer at Northwest Veterinary Specialist Hospital and Dr Nuala Summerfield: Director and Founder Member of Virtual Veterinary Specialists
