## **ULTRASOUND 2019**

Diagnosis, Disease and Delivery

## DAY 2 - WEDNESDAY 11TH DECEMBER 2019

	Hall D			's Suite		King's Suite
08.30	WOMEN'S HEALTH 1	Seminar Room 1	Seminar Room 2	Seminar Room 3	Seminar Room 4	Practical Training  Top Tips for Liver Imaging -
	Early Pregnancy and Gynae	MSK 1	PROFESSIONAL ISSUES 1	YOUNG INVESTIGATOR		Segments and Doppler
	Dilemmas of diagnosis in early pregnancy – pitfalls and medicolegal implications  J Ross	'How to Scan the shoulder' a talk and live scanning demonstration K Godson & R Levins	Medico-legal Aspects of Ultrasound Practice - What do Sonographers Need to Know ? T Elliot			Liver Segments A Lim
	What to say and how and when to say it – discussing early pregnancy scan findings R Sicklen	'How to Scan the Hand and Wrist' a talk and live scanning demonstration,  K Simm & R Brindley	Protecting the Patient - Who is Responsible?  N Thomson	During this session 4 short-listed oral papers from submitters under the age of 39 will battle it out to win the title of BMUS Young Investigator 2019 and the prize of representing the UK at the EUROSON 2020 Congress		Liver Doppler Principles <i>B Stenberg</i>
	Ask the Experts' Interactive case studies discussion J Ross, R Sicklen, A Smith	'How to Scan the Foot and Ankle' a talk and live scanning demonstration S Cochran & C Drury	Getting it Right First Time (GIRFT) in Ultrasound/Radiology K Halliday	in Bergen, Norway.		Faculty: P Cantin, T Fang, R Donnan, G Johnson, A Lim, B Stenberg,
			Proffered Papers			
10.00	REFRESHMENT BREAK  Education on the Stand' with Philips					
10.30	WOMENS' HEALTH 2 Polycystic ovarian syndrome, subfertility and you	MSK 2	HEAD & NECK 1	ThUNNDAR		Liver Elastography
	The new European Society of Human Reproduction and Embryology (ESHRE) guidelines for the assessment and management of polycystic ovarian syndrome (PCOS) N Tempest	The mechanisms of tendinopathy  M Bryant	Clinical Examination of the Head and Neck – It's all in the history! S Penney	A meeting of the Therapy Ultrasound Network for Drug Delivery and Abalation Research		Faculty: A Lim, T Fang, J Burn
	Diagnosis, treatment options and the resulting pathways for subfertile couples L Polanski	The plantar plate: what is it, where is it, and why should I care? S Ali	The U3 Conundrum – Can we improve? S Colley	Papers invited		
	Moving from a competent sonographer to a thoughtful practitioner - what happens in an IVF unit	Reporting MSK examination - open forum S Riley	Advanced Techniques in Head and Neck  A McQueen			
	T Labrunee		Proffered Papers			
12.00	LUNCH 'Education on the Stand' with GE Medical Systems		12.20 -BMUS		LUNCH 'Education on the Stand' with Philips	
			Annual General Meeting			
13.00	WOMENS' HEALTH 3	MSK 3	Annual General Meeting  BREAST	THuNNDAR	PROSTATE	OBSTETRICS PRACTICAL
	Towards Research	The use of ultrasound in Seronegative Inflammatory Arthritis		THUNNDAR  The meeting of the Therapy Ultrasound Network for Drug Delivery and Abalation Research (cont'd)	PROSTATE	OBSTETRICS PRACTICAL  Our first obstetric practical session looks at the fetal anatomy that, first, we may be able to image at the routine 12 week scan.
		The use of ultrasound in Seronegative Inflammatory Arthritis A case study A Hall	BREAST  What the surgeon wants from the symptomatic breast imager?	The meeting of the Therapy Ultrasound Network for Drug Delivery and Abalation Research (cont'd)	Join our experts for an informal 'coffee & chat' session discussing ultrasound of the Prostate	Our first obstetric practical session looks at the fetal anatomy that, first, we may be able to image at the routine 12 week scan.  We then move on to what, as experienced and not so experienced sonographers delivering a high quality obstetric service, we realistically should be able to
	Towards Research	The use of ultrasound in Seronegative Inflammatory Arthritis A case study A Hall  The role of ultrasound in the Diagnosis and management of vasculitis F Joshua	What the surgeon wants from the symptomatic breast imager?  P Thiruchelvam  The radiologist's view of imaging in a symptomatic Breast clinic	The meeting of the Therapy Ultrasound Network for Drug Delivery and Abalation Research (cont'd)	Join our experts for an informal 'coffee & chat' session	Our first obstetric practical session looks at the fetal anatomy that, first, we may be able to image at the routine 12 week scan.  We then move on to what, as experienced and not so experienced sonographers delivering a high quality obstetric service, we realistically should be able to image routinely at the 12 week scan.  Finally, we hope to reach a consensus from our
	Towards Research  Proffered Papers  Premature ovarian failure	The use of ultrasound in Seronegative Inflammatory Arthritis A case study A Hall  The role of ultrasound in the Diagnosis and management of vasculitis	What the surgeon wants from the symptomatic breast imager?  P Thiruchelvom  The radiologist's view of imaging in a symptomatic Breast clinic  C Rubin  Breast biopsy pathology more than binary outcome?  W Ng  New advances in Breast Ultrasound imaging  A Lim	The meeting of the Therapy Ultrasound Network for Drug Delivery and Abalation Research (cont'd)	Join our experts for an informal 'coffee & chat' session discussing ultrasound of the Prostate	Our first obstetric practical session looks at the fetal anatomy that, first, we may be able to image at the routine 12 week scan.  We then move on to what, as experienced and not so experienced sonographers delivering a high quality obstetric service, we realistically should be able to image routinely at the 12 week scan.  Finally, we hope to reach a consensus from our participants as to what fetal anatomy we realistically can assess at the routine 12 week scan.
13.00	Proffered Papers  Premature ovarian failure B Cloke  Caesarean section scars and cervical length	The use of ultrasound in Seronegative Inflammatory Arthritis A case study A Hall  The role of ultrasound in the Diagnosis and management of vasculitis F Joshua  Ultrasound guided synovial biopsis in RA research - The tissue is the Issue	What the surgeon wants from the symptomatic breast imager?
