

DAY 2 - THURSDAY 7TH DECEMBER 2017

	Plenary 1	Plenary 2	Plenary 3	Practical	Satellite
9.00	<p align="center">OBSTETRICS</p> <p>Ultrasound assessment to prevent stillbirths <i>K Morris</i></p> <p>Routine ultrasound surveillance in Twin Pregnancies <i>A Khalil</i></p>	<p align="center">HEAD & NECK</p> <p><i>Ultrasound Assessment of head and neck lymph nodes</i> <i>C Greenall</i></p> <p><i>Tongue, oral cavity and oropharynx - a new perspective</i> <i>T Beale</i></p> <p><i>Ultrasound of neck - A surgeons point of view</i> <i>L Pope</i></p>	<p align="center">VASCULAR</p> <p>CarotidUnderstanding velocity criteria for grading carotid disease <i>C Oates</i></p> <p>Future of Carotid disease assessment <i>S Rogers</i></p> <p>Plaque characterization and Grey Scale Median Assessment <i>R Simpson</i></p> <p>Doppler velocity accuracy <i>N Dudley</i></p>	<p align="center">MSK Advanced Practical</p> <p>The advanced practical workshops are aimed at those with current MSK ultrasound skills wishing to increase their knowledge of the more advanced techniques.</p> <p>The more complex areas of hip and groin, knee and elbow will be covered as well as ultrasound guided MSK interventions and scanning for inflammatory arthritis.</p>	<p align="center">THUGS</p> <p>Therapy in Ultrasound Group Meeting</p>
10.30	Refreshment Break				
11.00	<p align="center">OBSTETRICS</p> <p align="center">Peter Twining Lecture</p> <p>'The future of fetal medicine'</p> <p>delivered by <i>T Overton</i></p> <p><i>Proffered Papers</i></p>	<p align="center">HEAD & NECK</p> <p>Ultrasound Head and Neck services, a sonographers perspective and lessons learned <i>C Kirkpatrick</i></p> <p>Thyroid ultrasound - you can teach an old dogs new tricks! <i>R Evans</i></p> <p>Recent advances in head and neck scanning <i>A McQueen</i></p>	<p align="center">VASCULAR</p> <p>Illiic Endothelial Fibrosis <i>F D'Abate</i></p> <p>Popliteal entrapment - Overview and Assessment <i>A Kindon</i></p> <p>DVT Assessment and NICE Guidelines <i>L Smith</i></p>	<p align="center">MSK Advanced Practical</p> <p>Experienced sonographers / Radiologists will be on hand to help delegates get the maximum benefit from hands on, small group tutoring</p>	<p align="center">THUGS</p> <p>Therapy in Ultrasound Group Meeting</p>
12.30	Lunch Break				
12.45	BMUS AGM				
13.30	<p align="center">OBSTETRICS</p> <p>What to look for in the big fetus <i>M Taylor</i></p> <p>What to look for in the small fetus <i>V Bills</i></p> <p>Should we be screening for Vasa Praevia <i>G Attilakos</i></p>	<p align="center">MSK Advanced</p> <p>Ultrasound of hand injuries <i>C Gademsetty</i></p> <p>High Volume injections in the ankle and shoulder <i>R Young</i></p>	<p align="center">YOUNG INVESTIGATOR</p> <p>Seven chosen presenters, under the age of 39, will battle in out to become the UK representative at Euroson 2018 Congress in Poznan, Poland.</p>	<p align="center">HEAD & NECK Practical</p> <p>The anatomy of the head and neck will be taught in small groups . It will be delivered by the teaching of a series of standard sweeps through the neck ,each sweep being initially demonstrated by live scanning to the whole group. Following each demonstration the delegates will then scan the models under the supervision of a member of the head and neck faculty in their respective small groups.</p>	<p align="center">THUGS</p> <p>Therapy in Ultrasound Group Meeting</p>
15.00	Refreshment Break				
15.30	<p align="center">OBSTETRICS</p> <p>Ultrasound as a toll for first and second trimester prediction of pre-eclampsia <i>F Costa</i></p> <p>Case based discussions <i>T Overton</i></p>	<p align="center">MSK Advanced</p> <p>Ultrasound of the nerves in the upper limb <i>T Perris</i></p> <p>Ultrasound of the Hip and Groin with live demo <i>R Young & N Delves</i></p> <p>Diagnostic ultrasound in the Premier league - help or hindrance <i>M Gillett</i></p>	<p align="center">PROFESSIONAL ISSUES Case</p> <p>Sonographer career Framework - a view from above <i>S Morris</i></p> <p>Developing the imaging apprentice <i>A McGuinness</i></p> <p>Training the next generation of sonographers. Why this is a bad idea.... <i>H Venables</i></p>	<p align="center">HEAD & NECK Practical</p> <p>The neck will be systematically covered outlining the key structures that need to be identified ,starting from the submental region and ending with the larynx. Tips and pitfalls will be highlighted allowing a comprehensive scanning technique of the neck to be mastered under the guidance of the faculty. This workshop will allow the delegate to have confidence in neck scanning through a systematic approach.</p>	<p align="center">THUGS</p> <p>Therapy in Ultrasound Group Meeting</p>
17.00	Close				
19.00	<p>Annual Gala Dinner & Awards Ceremony 19.00 till late The Pittville Pump Room <i>Prebooked tickets only</i></p>
